**Case Narrative**

**REVISED REPORT-**

Sample 17L0024-01 Revised and amended to removed the detection of Chlorfenapyr. The initial result was due to the misidentification of the target analyte in the presence of an unexpected unidentified, non-target analyte that was demonstrated by an inconsistent ratio of primary and secondary ions.

Result has been removed, and this report dated 1/11/18 is now the official record of this sample. All other iterations should be considered void.
